Outsiders since 1907

Immerse yourself in an ocean of possibilities.

Explore our specially formulated flame-retardant coatings for maritime interior use. Whether it's a primer, multi-layer coating, or topcoat—clear or pigmented—we've got you covered. These systems naturally meet IMO regulations, ensuring the highest safety standards. Our coatings not only deliver top-tier protection but also facilitates an impressive range of individuality and design variety to enhance your Nautical Interior with a distinctive touch.

IMO CERTIFIED PRODUCT RANGE FOR YOUR INTERIOR:

ISOLATING FILLER AND PRIMER.

UPE® FIREPROTECT HT UP700

The perfect base coat for surfaces of the highest quality in depth and gloss. Ensures a quick and efficient paint application with a great dry film thickness. Due to its very high transparency, it also imparts the perfect shine to light and color-sensitive substrates.

PURIDUR® FUNDUS Isolating Filler 31055

Isolating and filling in one step. PURIDUR® FUNDUS is fast drying and has excellent sandability, reducing the processing time significantly. The optimal primer for colored and robust surfaces.

PURIDUR® Primer 32075

A fine-grit primer with high solid content, providing excellent filling capacity, high transparency, and minimal sagging behavior when designing polyurethane high-gloss surfaces. This formulation is suitable for all types of wood.

PIGMENTED MULTILAYER COATINGS AND TOPCOATS

VARIOPUR® PLUS PU800

A user-friendly paint system for highly light-resistant, colored surfaces with good resistance to ring formation and strong adhesion properties on various substrates. When it comes to color and effect, nothing is impossible - with VARIOPUR® PLUS you can let your creativity run free.

CLEAR MULTILAYER COATINGS AND TOPCOATS

PURIDUR® KARAT 33550

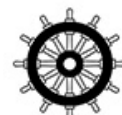

The perfect multilayer coating for the highest quality standards and a versatile range of applications. Serves all gloss levels from satin to matte, providing perfect protection for color-sensitive woods and pigmented surfaces. Due to its solid content, PURIDUR® KARAT is suitable as both a primer and a topcoat.

PURIDUR® Wood Effect 33079

The coating that preserves the authenticity of your wooden surface, creating a genuine wood effect with distinctive character. Experience the advantages high transparency and color fastness, along with a velvety texture and excellent scratch resistance.

PURIDUR® High-gloss lacquer 33320

A lightfast and high-filling topcoat with supreme brilliance for the perfect shine. This product impresses with a flawless flow, thereby reducing the subsequent sanding and polishing effort. Additionally, the coating excels in fast drying, high elasticity, scratch resistance, and superior lightfastness.

Ignite the spark of individuality while staying fire-resistant - with a blend of safety and style on board. Contact us for the perfect fusion of protection and design variety!
